

Brecon Community Health Council response to Proposed Provision of Mental Health Services LCO Committee. “The National Assembly for Wales (Legislative Competence (No 6) Order 2008 (Relating to Provision of Mental Health Services)”.

“In particular the Committee would like to receive evidence on the following.”

- 1 We believe the terms of the Order would allow for the implementation of the policy.
- 2 We believe the proposed Order is appropriate.
- 3 It should not cover other Orders.
- 4 We do not believe this will adequately deal with cross border issues especially where it relates to inpatient services used by North Powys and Shrewsbury.
- 5 We would fully support the wider use of advocacy services to those persons “who are or may be mentally disordered” and not provided for under current legislation.
- 6 Yes
- 7 The definition appears appropriate.
- 8 Further guidance on what constitutes treatment should be included.
