

Thank you for inviting Cardiff Social Services to respond to the above.  
I do not consider that we can comment in detail on this until it becomes a matter of financing and implementation, when we would welcome the opportunity to comment further.

However under point 3 I would suggest that as statutory mental health services involve health and social care any duties imposed should reflect this. Point 5 is also too broad as it could relate to any individual in Wales and so could prove difficult to implement.

I would be prepared to give oral evidence to the committee should they feel it necessary.

Once again thank you for giving us the opportunity to respond.

Sincerely,

Lance Carver  
Service Manager (Mental Health)
